

Priya Sharma Machine Learning Engineer | priyasharma.ai@example.com Summary: Machine Learning Engineer experienced in NLP and predictive modeling, focusing on robust pipelines and production-ready ML APIs. Experience: ML Engineer, FinAI Labs (2022–Present) - Built customer churn prediction models using scikit-learn and PyTorch. - Automated ETL with Airflow; tracked experiments using MLflow. - Deployed inference API with FastAPI and Docker on AWS Lambda. Data Scientist, InsightHub (2020–2022) - NLP classification using Hugging Face transformers. - Text preprocessing pipelines with spaCy. Skills: Python, scikit-learn, PyTorch, MLflow, Airflow, spaCy, Hugging Face, FastAPI, AWS, Docker
